

DekaWorld International Logistics Company

DekaWorld, one of the main subsidiaries of DekaLogistics Holding, began its operations over a decade ago with the goal of providing international logistics services. Relying on the expertise and capabilities of its specialized workforce and numerous representatives around the world, the company delivers professional, fast, and secure logistics solutions for a wide range of goods and shipments worldwide.

As a trusted partner within its clients' supply chains, DekaWorld has developed flexible and efficient solutions for handling all types of cargo, from consumer and sensitive goods to heavy shipments, regardless of weight, volume, or level of sensitivity, from any origin to any destination across the globe. By leveraging advanced facilities and adhering to strict safety and warehousing standards, the company ensures that its customers receive exceptional services of the highest quality at competitive rates.

Who are we?

DekaLogistics Holding, the first specialized brand in providing comprehensive logistics services, relies on the capabilities of its subsidiary companies to serve clients in all stages of the supply chain, from consultation to execution, without any geographical or volume limitations.

Now, with pride and backed by the unlimited facilities and capabilities at our disposal, we tell you: With DekaLogistics Holding, you can easily move any package or cargo from any point to any point in this world. If you also wish to always hold the leading position in your business, perhaps now is the time to change your perspective on the logistics and transportation industry; rely on our knowledge and experience with peace of mind,

DekaWorld's Unique Capabilities

DekaWorld, as one of the main pillars of DekaLogistics Holding in the field of international logistics, has secured a leading position in the global logistics industry by providing comprehensive and specialized services across the supply chain. The company's unique strengths include:

- **Extensive International Network**

- Multiple branches in Turkey, the United Arab Emirates, Russia, China, and Europe
- Dedicated representatives based in northern and southern ports of Iran, as well as at all borders and customs offices across the country
- Membership in reputable domestic and international organizations and associations such as FIATA, ITCA, ICCIM, and IRU
- A collaborative network with reputable international companies and agents in Europe, China, and other parts of the world
- Contribution to the revival of the modern Silk Road

- **Advanced Transit Services:**

- International transit from China, India, and Southeast Asia to Russia and CIS countries via Iranian territory, and vice versa.
- Design of international multimodal transport routes utilizing the country's rail and road infrastructure and potential.
- Provision of domestic transit services from all border entry points to internal customs offices and specialized warehouses.
- Offering logistics engineering and consulting services to clients.

- **International Road Transport:**

- Utilization of owned and affiliated fleets for the transport of import, export, and transit cargo.
- Specialized transport of petrochemical export cargo for cargo owners to European countries, Turkey, CIS countries, Iraq, Pakistan, and Afghanistan.
- International road transport of oil, chemical, and gas products.
- Provision of specialized import and transshipment services for incoming cargo from Europe.
- Provision of FTL (Full Truck Load) services for export, import, and transit from European and CIS countries, Central Asia, and neighboring countries.
- Provision of LTL (Less Than Truck Load) services for export, import, and transit, relying on the dedicated warehouses in Sahlan and Shahriar.

The World is Small

- **Maritime Transport (DekaShip):**

- Transport of cargo on an FTL (Full Truck Load) and LTL (Less Than Truck Load) basis on routes to northern, southern, and overseas ports.
- Combined transport via cross-stuffing and transshipment through the ports of Mersin, Iskenderun, and Jebel Ali to various European ports.

- **Air Transport:**

- Provision of freight forwarding services for international air cargo.
- Offering competitive prices for the transport of import air cargo from China, Southeast Asia, and Europe.
- Providing direct and transshipment services for air cargo in Dubai to access European export markets.

- **International Warehousing Logistics Services:**

- Utilization of owned warehouses in the customs areas of Sahlan, Tabriz, Tehran, Isfahan, and all national ports to facilitate cargo storage and management.
- Offering warehousing, transshipment, and LTL logistics services in Sofia, Antwerp, Istanbul, Mersin, Dubai, and CIS countries.

DekaWorld, by focusing on providing advanced logistics services, rapid response, and eliminating intermediaries, strives to offer an innovative, reliable, and economical experience for its clients, aiming to establish a new paradigm in international transportation through expertise and technology.

“Where Strength, Commitment, and Speed Meet”

The World is Small

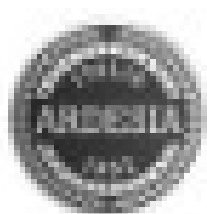

DekaLogistics Holding, by offering end-to-end supply chain services from consultancy to execution in warehousing, transportation, distribution, and more, acts as a 4PL provider, enabling clients to focus confidently on product development, sales, and other core operations.

Today, with pride and backed by our capabilities and resources, we say:

With DekaLogistics Holding, you can effortlessly move any shipment or cargo from any point to any destination in the world.

If you aspire to maintain a leading position in your business, now may be the perfect time to rethink your approach to logistics and transportation. Rely on our expertise with peace of mind and accelerate your journey toward global growth.
